

REUSABLE DIAPERS

REUSABLE DIAPERS ARE AN ALTERNATIVE TO DISPOSABLE DIAPERS

We use them just like disposable diapers with the difference that we do not put them into the trash after use.

ECOLOGY: the inserts do not compose of any chemical absorbents and each part of the diaper is reusable. Dirty diapers should be washed in the washing machine just like child's clothing, then dried up and used again.

ECONOMY: diapering a child with reusable diapers will cost you around 850 PLN, whereas disposable diapers will cost around 3500 PLN.

ESTHETICS: they are colourful and beautiful. Thanks to them diapering a child is very pleasant and colourful. In summer all a child needs is a top and a colour matched diaper.

HEALTH: Thanks to the vapour - permeable membrane, thermo-regulation and airflow technology MM reusable diapers are designed to minimize the risk of chaffing and protect the child's skin against diaper rash.

The vast choice of absorbent inserts is a very important thing.

The Mommy Mouse diapers take into account the various requirements regarding the infant's skin and are also adjustable to various stages of child development. Parents may choose the NEWBORN shell which is suited to the smallest babies, the universal ONE SIZE diaper (from 4 kg up to 16 kg) and the XL shell for children that need protection at night.

A perfect choice for parents
that value comfort and versatility of the diaper.

SIO/SYSTEM DIAPER

(SNAP-IN-ONE)

ONE SIZE  4 - 16 kg

THE MOST IMPORTANT CHARACTERISTIC OF THE DIAPER IS ITS VERSATILITY.

The SIO/SYSTEM diaper has a well-designed system of reusable inserts. The inserts are made of various materials that serve different functions. Some inserts protect the skin against moisture (SIO Polar Air inserts) others are helpful in diapering children (SIO Natura Line or SIO Bamboo Air inserts). For summer days we recommend SIO Thermo inserts that will cool the sensitive skin of a newborn baby.

The diaper can be also used as a night diaper thanks to the attachable Night Soft and Night Plus inserts.

DEDICATED SYSTEM INSERTS

AVAILABLE PATTERNS

Check patterns on page 29

SIO/SYSTEM DIAPER (SNAP-IN-ONE)

The SIO/System diaper (snap-in-one) consists of the waterproof shell that includes the inner attachable system snaps. The basic function of the SIO/System diaper is the protection of the child's clothing against moisture.

The diaper comes in a universal size: ONE SIZE. It was designed for children from 4kg up to 16 kg. The size of the diaper can be adjusted at the waist and in a vertical direction. The diaper has a built-in Mommy Mouse no-crush System element that prevents the band from leaving imprints on the child's skin.

The AIO diaper is an acronym of **All-In-One**. It was designed for children **from 6,5 up to 16 kg**.

AIO ONE SIZE

The diaper consists of colourful and waterproof PUL element sewn onto the absorbent part of the diaper. The absorbent part includes the pocket open at the front and back of the diaper. It allows you to fix the absorbent insert inside the diaper effortlessly and makes the diaper dry quicker.

AVAILABLE PATTERNS

Check patterns on page 29

ONE SIZE  6,5 - 16 kg

AIO ONE SIZE

Inside there are two layers of very absorbent, unbleached cotton terry, to which a long absorbent insert is sewn. The absorbent core is sewn in three places, which suggest places of folding for a girl (one folding of the insert in the middle of the diaper) and for a boy (two foldings of the insert to the front of the diaper). Such folds make it easier to control the process of the absorption. The child's skin is wrapped in soft, extremely delicate, unbleached, natural and certified organic cotton.

AIO Diaper is very easy and convenient to use — AIO (ALL IN ONE). We do not have to adjust the absorbent inserts of the diaper. The AIO New-born diapers are perfect for people without any experience in diapering.

THE NEWBORN SHELL DIAPER

NEWBORN SIZE  2,8 - 7 kg

The NEWBORN inserts are probably the only inserts that prevent the content from getting out of the diaper.
The diaper is made without any elastic bands. The NO-CRUSH system delicately wraps around and seals
the child's leg, and prevents the contents from getting out of the diaper and onto the clothes.

Check how NEWBORN inserts are adjusted to various needs of a child.

- 1) **NEWBORN Polar insert** — are made of a combination of microfiber and micro fleece fabric giving a feeling of dryness and comfort.
- 2) **NEWBORN Thermo insert** — a perfect choice for summer days, it gives the child a sense of dryness and has exceptional thermos-regulating qualities thanks to the THERMO Mouse material.
- 3) **NEWBORN SILKY insert** — children with sensitive skin are in contact with extremely delicate and 100% natural bamboo from Mommy Mouse Bamboo Oryginal.

Children with sensitive skin are in contact with extremely delicate and natural material.

THE NEWBORN SHELL DIAPER

The NEWBORN shell diaper has got an umbilical cord cut-out to help new parents take care for their babies cord stump. The cut out keeps the diaper from rubbing onto the stump and lets the air in giving the navel a chance to heal.

The diaper's clasp has a built-in elastic element with Mommy Mouse NO-CRUSH system which prevents imprints on a delicate skin of the baby.

The shell diaper is a perfect choice for parents who pay attention to the costs of diapering a child.

THE ONE SIZE SHELL DIAPER

ONE SIZE  4 - 16 kg

Into this shell you can put inserts or terry nappies. There are no snaps, pockets or inserts inside. The Shell gives you a wider choice of the inserts you want to use. You can put into The Shell anything with the ability to absorb.

THE ONE SIZE SHELL DIAPER

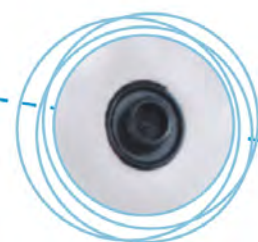

The ONE SIZE Shell diaper is designed to be the most economical option of diapering. A couple of shells and several inserts are enough to diaper a child comfortably.

The diaper's clasp has a built-in elastic element with Mommy Mouse NO-CRUSH system which prevents imprints on a delicate skin of the baby.

The diaper has an inner mesh that protects the child's skin against direct contact with vapour-permeable membrane. The mesh also protects the waterproof layer against damage from nails. The diaper is very neat and absorbent. Thanks to its flexibility it can perfectly seal the inserts and is an excellent substitute of most type of diapers in the market.

The XL SHELL is a diaper for bigger babies.

THE
XL
SHELL DIAPER

The XL SHELL diaper is a perfect solution for children who need a lot of inserts or a very absorbent forming diaper.

- 1) **The PUL ESCORT insert** — is a “protective” insert. The PUL Escort soaks excess moisture from smaller inserts (SIO L/XL insert or simple shell inserts) and prevents it from penetrating further into the XL shell.
- 2) **JUNIOR INSERTS** — have an hourglass shape with a large absorbent surface that is intended for children over 12 kg.

We recommend 4 types of JUNIOR inserts:

- JUNIOR Polar
- JUNIOR Thermo
- JUNIOR SILKY
- JUNIOR Bamboo

THE XL SHELL DIAPER

The XL SHELL is designed for multiple diaper use for toddlers during the night. The shell is wider and longer than the standard diaper. Thanks to the XL shell and the extraordinary Junior and Escort inserts, the child will sleep peacefully at night.

The XL SHELL just like the One Size SHELL has an inner AIR FLOW MESH that protects PUL from micro-damage. The built-in NO CRUSH is a delicate elastic band that prevents leakages and leaves no imprints on the child's skin.

No-crush system is a soft and flexible element inside the SIO Travel inserts, the NEWBORN inserts and the forming diaper. It covers and seals the insert in the groin leaving no imprints on the delicate skin of a baby. NO-CRUSH system is very comfortable for children.

THE FORMING DIAPER WITH NO-CRUSH SYSTEM

Snap fastenings

Velcro fastenings

*THE FORMING DIAPER AND THE XL SHELL TOGETHER
FORM THE BEST POSSIBLE SOLUTION OF DIAPERING.*

The fitted diapers are mainly used at night and are made with different absorbent layers.

The set includes two absorbent hourglass inserts L / XL and S / M. The inserts can be fastened and clipped together or clipped individually to the fitted diaper. The fitted diapers can be adjusted to suit the level of absorbency making the diaper dry very quickly.

The forming diaper is adapted to the different expectations of parents and the needs of the child.

1) The POLAR forming diaper – ensures dryness of the child, the microfleece keeps the moisture away from the child's skin and provides a feeling of comfort.

2) The THERMO forming diaper – ensures excellent thermo-ventilation for the child's skin and gives the child a sense of coolness and dryness which is a good option for hot weather.

3) The SILKY COTTON forming diaper – 100% cotton organic which ensures children with sensitive skin an extremely delicate natural experience of certified Cotton Organic material.

Children with sensitive skin are in contact with extremely delicate and natural material.

We should put an XL shell on the forming diaper.

THE FORMING DIAPER / THE XL SHELL

XL SIZE  **9 - 19 kg**

ONE SIZE  **6 - 16 kg**

THE FORMING DIAPER

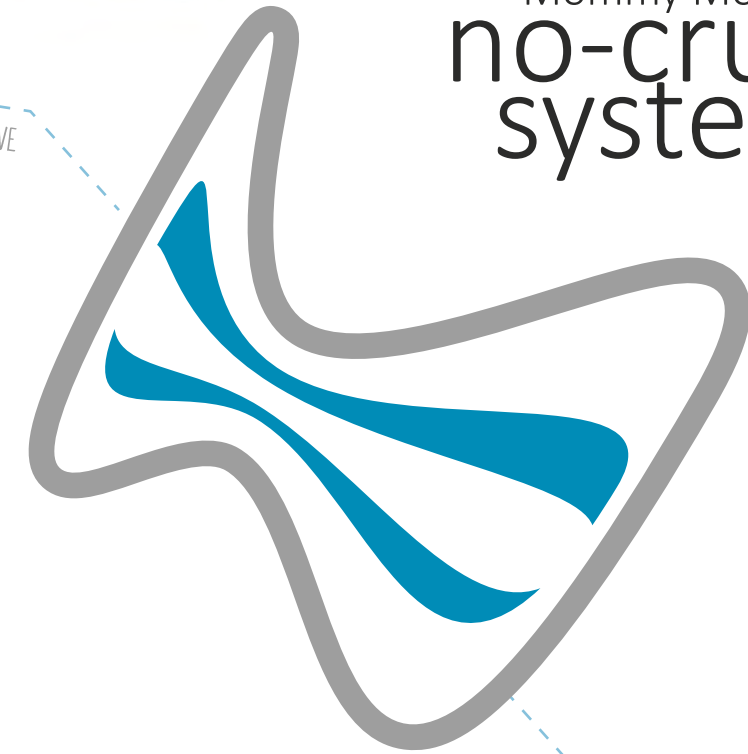

THE NO-CRUSH SYSTEM INSIDE THE FORMING DIAPER IS A VERY INNOVATIVE SOLUTION PROVIDED BY MOMMY MOUSE. IT'S A NOVELTY THAT ALLOWS YOU TO USE VERY ABSORBENT FORMING DIAPER WITHOUT BANDS LOCATED IN THE LEG GUSSETS.

Mommy Mouse no-crush system

THE TRAVEL INSERT

THE SIO TRAVEL INSERT HAS A BUILT-IN NO-CRUSH SYSTEM IN THE LEG GUSSETS THAT SEALS PERFECTLY THE INSERT WITHOUT LEAVING IMPRINTS ON THE DELICATE SKIN OF A CHILD.

MOMMY MOUSE NO-CRUSH SYSTEM

The fitted diaper is a diaper that absorbs with its entire surface, in other words it can be described as one large absorbent fastened insert/diaper. The fitted diapers are mainly used at night and are made with different absorbent layers.

THE NO-CRUSH SYSTEM WAS ALSO APPLIED IN THE NEWBORN INSERTS, THE TRAVEL INSERTS AND THE FORMING DIAPER.

THE NEWBORN INSERT

THE NEWBORN INSERT DOES NOT HAVE ELASTIC BANDS. THE NO-CRUSH SYSTEM DELICATELY WRAPS AROUND AND SEALS THE CHILD'S LEG, AND PREVENTS THE CONTENTS FROM GETTING OUT OF THE DIAPER AND ONTO THE CLOTHES.

The soft and flexible element covers and seals the insert in the groin leaving no imprints on the delicate skin of a child. The NO-CRUSH SYSTEM is very comfortable for children. The inserts do not squeeze and are very comfortable and tight without double bands in the leg gussets. No more imprints on the skin of a child!

The pocket diaper is the simplest way to change a child.

POCKET DIAPER

The pocket diaper is a perfect choice for everyday use – very comfortable and neat, just like any single-use diaper. The diaper contains a pocket into which inserts can be 'stuffed'. The colourful outer layer is made of waterproof PUL material that protects the child's clothing from leakage. The material is breathable and waterproof that minimizes the nappy rash.

We recommend using the pocket diaper together with Mommy Mouse inserts: Polar Air, Thermo Air, Bamboo Air, Natura Line.

DEDICATED SYSTEM INSERTS

Thermo Air inserts

Bamboo Air inserts

Natura Line inserts

ONE SIZE  4 - 16 kg

AVAILABLE PATTERNS

Check patterns on page 29

POCKET DIAPER

The pocket diaper consists of two parts: The colourful outer PUL layer, which protects the child's clothing from leakage and the inner part – the pocket. The diaper contains a pocket into which inserts can be 'stuffed' and then put on the child's bottom. If soaked, you should remove the inserts and put the dirty diaper into a diaper pail. When you collect enough diapers to fill a washing machine, you should wash it and dry – the diapers are ready to be used again.

The size of the pocket diaper can be adjusted vertically with the snaps and by shortening the bands located in the leg gussets and at the waist. The very dense placement of the snaps ensure the best possible adjustment of the diaper to the child's body, so that the baby could feel comfortable.

MICROFLEECE POCKET DIAPER

It drains away moisture from the child's skin and makes the child feel dry and happy. Mommy Mouse micro-fleece is extremely soft and certified with OEKO-TEXT Standard 100 and Bluesign CERTIFICATE, which ensure the high quality of safety – no adverse effects on the child's health.

THERMO POCKET DIAPER

Thermo-Air material ensures excellent thermo-ventilation for the child's skin which is a good option for hot weather. It is breathable and its thermo-regulating qualities gives the child a sense of dryness. Thanks to its structure, the material immediately absorbs moisture onto the insert. It is the perfect solution for the summer, minimizing the risk of nappy rash also a perfect solution for summer, because it minimizes the risk of chafing while maintaining a sufficient sense of dryness. It is certified with the OEKO-TEX Standard 100.

SILKY POCKET DIAPER

Silky Cotton is a delicate fabric made of natural cotton fibers, extremely soft and delicate – especially recommended for children who do not tolerate synthetic materials for dermatological reasons. The sensitive skin of a child is in contact with the exceptionally delicate, natural and certified COTTON Organic material.

Comfortable and convenient diapers that do not cause any imprints on the child's delicate skin.

PRESSURE-FREE DIAPER

ONE SIZE  4 - 16 kg

The pressure-free shell doesn't have any elastic bands around your child's thighs. Instead, the leg is wrapped in a delicate, flexible no frame element with the mommymouse NO-CRUSH system.

This innovative diaper is a great solution for parents who care about providing their toddler with another level of comfort.

PRESSURE-FREE DIAPER

Mommy Mouse
no-crush
system

Instead of elastic bands the NO-CRUSH system delicately wraps around and seals the child's leg, and prevents the contents from getting out of the diaper and onto the clothes. There is no need to re-arrange the flexible element at the groin area. All that is needed, is to wrap the legs thoroughly.

COTTON ORGANIC

JUMBO:

The **JUMBO cotton-bamboo insert** is a simple absorbent insert consisting of several components, perfectly suited for diapers such as Swaddle, Swaddle SIO and other diapers that need additional absorbent layers.

COVERS:

The **COVERS COTTON ORGANIC** inserts – very **absorbent** inserts that are made of 100% unbleached **organic cotton**. Perfect for children and parents who prefer mainly **natural materials**.

The **COVERS COTTON ORGANIC** inserts are made of unbleached **cotton terry** and 100% unbleached, soft **organic cotton**.

It gives the child a sense of coolness and dryness.

COVERS BAMBOO:

The **BAMBOO INSERTS** are designed for children who have very sensitive skin and cannot tolerate any artificial fibres on their skin, **especially children with atopic eczema**. The Bamboo inserts are made of **bamboo terry** and certified organic **cotton**. They are **unbleached**, completely **undyed**, completely **natural**.

The inserts are certified with:
– The Oeko Tex Standard 100,
– safe for kids.

The Bamboo inserts have got a **NO-CRUSH** system that delicately wraps around and seals the child's leg. It prevents the contents from getting out of the diaper and onto the clothes.

They give the child a sense of coolness and dryness.

COVERS-COTTON ORGANIC:

The **COVERS COTTON ORGANIC** inserts – very **absorbent** inserts that are made of 100% unbleached **organic cotton**. Perfect for children and parents who prefer mainly **natural materials**.

The **COVERS COTTON ORGANIC** inserts are made of unbleached **cotton terry** and 100% unbleached, soft **organic cotton**.

TRAVEL:

The **SIO Travel Cotton Organic** set includes a soaker pad and a booster. It is designed for children with sensitive skin.

The natural 100% unbleached certified **Organic cotton material** ensures extremely delicate contact with the child's skin.

The **SIO Travel Cotton Organic** pads are made of **unbleached cotton terry** and 100% unbleached, delicate organic cotton.

100% absorption is obtained after about 8-10 washes.

NEWBORN:

The **NEWBORN inserts** are probably the only inserts that prevent the content from getting out of the diaper. The diaper is made without any elastic bands. The **NO-CRUSH** system delicately wraps around and seals the child's leg, and prevents the contents from getting out of the diaper and onto the clothes.

This is an excellent alternative to a newborn forming diaper.

COTTON TERRY ECO-DIAPER TETRA MOUSE

TTetra Mouse diaper is an improved version of the popular used terry cloth diaper and revolutionizes the traditional terry diaper with a new modified one that offers a traditional feel but with modern modifications and applications.

A must have diaper for new born babies. It is made of eco-friendly, unbleached 100% cotton terry with a cloth density of 210 g / m2.

The **Oeko-Tex Standard 100 certificate** is a confirmation that Mommy Mouse uses the highest quality products and maintains the necessary standards of safety.

Material: 100% natural, unbleached organic organic cotton with a cloth density of 210 g/m2.

We designed the entire series of natural products for children with delicate and sensitive skin. The delicate skin of a child comes in contact only with natural material without any artificial additions.

NATURA SERIES

THE SILKY POCKET DIAPER

The SILKY Pocket diaper with organic cotton pocket was designed for parents who prefer this kind of a diaper and for children who need natural materials.

THE NATURA LINE INSERTS

The inserts are made of bamboo terry and certified organic cotton. The inserts are unbleached, completely undyed and completely natural. The Natura Line inserts are very breathable and provide the optimal temperature inside the diaper. They are certified with OEKO TEX Standard 100 and safe for kids.

The SIO Natura Line insert (insert for SIO/System diaper)
Size: S/M i L/XL

The Natura Line insert for shell diapers
Size: S, M and L

THE NATURA LINE INSERTS

The inserts are made of bamboo terry and certified organic cotton. The inserts are unbleached, completely undyed and completely natural. The Natura Line inserts are very breathable and provide the optimal temperature inside the diaper. They are certified with OEKO TEX Standard 100 and safe for kids.

The SIO Travel Silky with no-crush system
designed for long strolls, trips and holidays.

The NEWBORN SILKY insert, a delicate cotton material
that protects the child of a newborn baby against the nappy rash.

The JUNIOR SILKY insert, a delicate cotton material
that protects the child of a newborn baby against the nappy rash.

THE SIO TRAVEL INSERTS

*THE SIO TRAVEL INSERT
IS A VERSITILE PRODUCT
- IT WILL SUCCEED IN SITUATIONS
WHERE OTHER INSERTS FAIL.*

*ON A STROLL, ON A TRIP, ON HOLIDAYS, AT FRIENDS.
EVERYWHERE WHERE YOU DON'T WANT PROBLEMS WITH THE DIAPER.*

SIO TRAVEL THERMO INSERT

made of *MMA-THERMO enclosed in thermo-regulating fabric giving the child a sense of coolness and dryness. Thanks to its structure, the material immediately absorbs moisture onto the insert. It is ideal for children who are sensitive to fleece and prone to nappy rash.

SIO TRAVEL POLAR INSERT

consists of layers of thick and highly absorbent hydro-terry *MMAIS-ONE. The fleece insert is useful when we want our baby to feel dry and have dry skin despite wetting.

SIO TRAVEL BAMBOO INSERT

consists of layers of thick and highly absorbent hydro-terry *MMAIS-ONE strengthened with 100% bamboo terry (sense of wetness).

SIO TRAVEL SILKY INSERT

consists of layers of thick and highly absorbent hydro-terry *MMAIS-ONE. 100% cotton organic which ensures children with sensitive skin an extremely delicate natural experience. The children with sensitive skin are ensured contact with extremely delicate and natural material.

* MMAIS — ONE (MOMMY MOUSE ACTIV INSERT— ONE) fabric is a very absorbent material that has been produced specifically for Mommy Mouse. The Mommy Mouse materials are certified with the OEKO -TEX Standard.

The pads have hourglass shape like other SIO soaker pads but with a NO-CRUSH system that does not allow moisture. Inside the pad is a waterproof and vapour-permeable insert, which additionally protects the SIO diaper from soaking. Thanks to these additional anti-moisture measures, you can minimize luggage while traveling by taking one or two SIO diapers and several travel soaker pads for the whole day. SIO Travel soaker pads are designed for long journeys, car trips or long walks.

The SIO TRAVEL insert has a built-in NO-CRUSH system at the leg gussets, which perfectly seals the pad leaving no imprints on the child's skin. The set includes the main insert and an additional insert (booster). The SIO TRAVEL inserts are made of various materials that are fit to the requirements and needs of the sensitive skin of children.

USEFUL ACCESSORIES WHILE USING REUSABLE DIAPERS

REUSABLE DIAPERS BAG

A must-have for a walk, a trip or outdoor activities with a child. Always at hand. It has a fastening on the string that allows the bag to be hanged on a pram or a bike. The bag also contains a zip that effectively prevents unpleasant smell from getting out of the bag. The bag is universal – a necessary thing on the pool to freely pack the wet bathing suit of your boy or the princess swimming suit of your girl.

REUSABLE WIPES WITH WATERPROOF WIPE BAG

A must-have for a walk, a trip or outdoor activities with a child. Always at hand. The bag is waterproof and can be stuffed with wet wipes that are useful when you clean your child during a walk. You may add a few drops of essential oil so that the wipes could smell wonderfully. The set includes 5 reusable and two-sided wipes. The wipe on one side consists of bamboo terry, on the other one of delicate Thermo material.

COTTON ORGANIC REUSABLE WIPES – WASH BAG

The two-sided wipes – on one side made of bamboo terry, which perfectly washes the dirty hands or the face of the baby. On the second side they are made of Thermo Mouse material, which gently removes the dirt from the child's skin. They are perfect for diaper change. When soaked in water, they are an excellent substitute for disposable moist wipes.

USEFUL ACCESSORIES WHILE USING REUSABLE DIAPERS

CHANGING MAT

A changing mat, a blanket — no matter how we call it is a **practical** and **universal** gadget indispensable in everyday life.

It is a perfect solution for a **portable protection**; a safe alternative to your child — it is **ready to use** at any time and whenever you need.

Small size is another advantage in the use of the mat when you take care of the baby, nurse it or put it to sleep.

A „MUST HAVE“ FOR EVERY MOTHER

COTTON MAT

Cotton Mat — was made with a view to the needs of the youngest, its multifunctionality and handy character are a great advantage of the product.

NURSING PADS

The lactation inserts are indispensable for nursing women. They are contoured to fit better in your nursing bra. The comfortable protection against unwanted leaks is provided by the absorbent inner layer of the insert and by the outer PUL later.

The skin comes in contact with natural **organic cotton** or **Coolmax** material.

RUCKSACK BAG

THE RUCKSACK BAG is a waterproof and very useful bag for children. It is a **part of Mommy Mouse swim wear collection**.

It serves as a **very spacious beach bag** or a **practical rucksack** — perfect for a trip and for a walk. The **soft cotton strings** do not burden the user's arms.

It has a handy and colourful pocket.

DRY DIAPER INSERTS

The Dry Diaper insert is useful when we want our baby to feel dry and have dry skin despite wetting. It protects and separates children's sensitive skin from **moisture**.

The Dry Diaper insert is best used with bamboo inserts.

Perfect for **new born babies**. It makes it easier to collect the dirt from the dry napkin liner and rinse it under the tap than to **obliterate a dirty diaper or a pad**.

It is made of materials that are friendly to the child's skin and are certified with:

- OEKO-TEX Standard 100,
- Bluesign CERTIFICATE.

USEFUL ACCESSORIES WHILE USING REUSABLE DIAPERS

DIAPER BAG

is a must-have for a walk, a trip or outdoor activities with a child — **always at hand**. It has a **fastening on the string** that allows the bag to be hung on a pram or a bike. The bag also contains a **zip that effectively prevents unpleasant smell from getting out of the bag**.

The bag is universal and waterproof — a **necessary thing on the pool** to freely pack the wet bathing suit of your boy :) or the princess swimming suit of your girl :)

Available in various „mouse“ patterns and colours!

The bag can fit approximately 5 diapers together with inserts.

WIPES BAGS

BAMBOO reusable wipes

BAMBOO PINK reusable wipes

COTTON ORGANIC reusable wipes

REUSABLE WIPES BAG — REUSABLE WIPES — SET

The two-sided wipes — on one side made of **bamboo terry**, which perfectly washes the dirty hands or the face of the baby. On the second side they are made of **Thermo Mouse** material, which gently removes the dirt from the child's skin.

They are perfect for diaper change. When soaked in water, they are an excellent substitute for disposable moist wipes.

WATERPROOF COTTON PUL SHEET

The comfort and aesthetics of the cot are very important for a little child. The comfortable mattress cot, in which the child spends most of his time, guarantees comfortable sleep and rest.

The cot sheet, the carrycot sheet or simply the cradle sheet — each of them is a part of the linen that protects the mattress against dirt and provides additional thermal comfort.

DIAPER BAG

An extremely practical, functional and roomy bag designed to facilitate packing all the necessary accessories in an easy and organized system. **Eco-Mum's multifunctional bag** is a must-have during everyday walks and journeys.

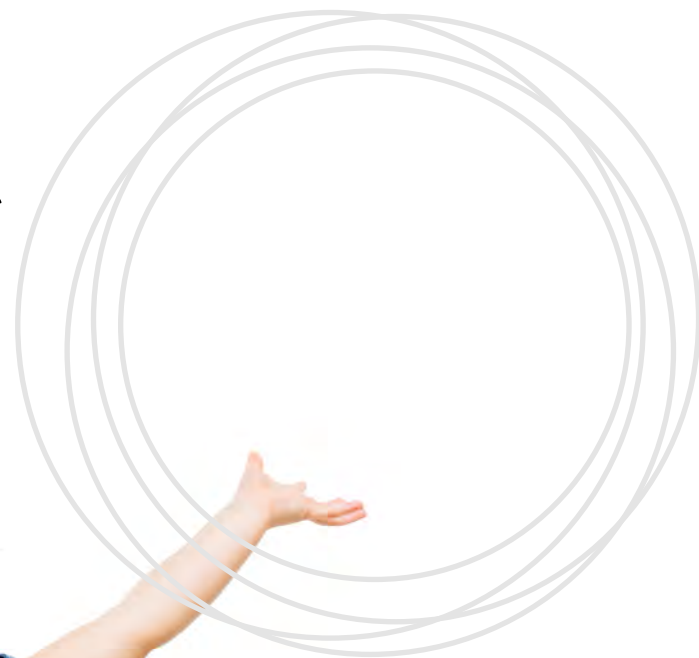

Natural, spacious and safe...

PULL BAGS

Large, practical and MULTIFUNCTIONAL — a waterproof PUL bag has many applications. The wide strap allows you to attach the bag in any convenient place — anywhere like door knobs, towel rails, door hangers thanks to the handle with a clasp on it. Always at hand when you need to hide dirty diapers.

TRAINING UNDERWEAR

- Soft organic cotton which guarantees comfort and a thermoregulation material that provides the necessary air circulation and optimal temperature inside the training underwear that makes it suitable for the toddler's skin.
- The PUL outer layer which is waterproof and vapour permeable protects the child's clothing from leakage.
- A delicate thermal inner layer that insulates the absorbent layer from the baby's skin. This layer has excellent thermoregulatory properties.
- An additional layer of soft, highly absorbent MAI-S ONE fabric (M Activ Insert-System One) that is sewn onto the diaper in sensitive areas and is very effective in soaking the moisture from the training underwear.

The delicate elastic band is used at the waist as well as thighs which freely adjusts to the body and prevents imprints on the toddler's skin. The band seals the underwear and prevents leakage.

Remember that training underwear does not replace reusable diapers!

Training underwear eases the transition from diapers to a potty training mindset. It also encourages the toddler to gradually adjust themselves to independent dressing. The potty training underwear is made of certified materials which is selected to protect the little user's skin.

Available in S/M and L/XL sizes.

Mommy Mouse diapers are manufactured in our own factory in Poland. We support our community by hiring skilled local labour hence contributing to the reduction of unemployment in the area. Zator is located in the carp valley that belongs to the Natura 2000 region, a place that takes great pride in nature and ecology. We want to share our passion by presenting you with ecological and healthier alternatives for your baby's bottoms.

*WE WANT TO SHARE OUR PASSION
BY PRESENTING YOU WITH ECOLOGICAL
AND HEALTHIER ALTERNATIVES FOR YOUR BABY'S BOTTOMS.*

Mommy Mouse diaper are designed designed and thoroughly tested in a controlled environment, perfecting it at every stage of the design process. The diapers are made of materials that are certified with Oeko — Tex Standard 100.

The materials are produced specifically for Mommy Mouse in Polish and other European knitting factories, allowing for constant control over the quality and materials used to manufacture the diapers. Our cute unique smiling Mommy mice labels can be attributed to Ola Firlińska-Pilorz, a talented designer who graduated from the Academy of Fine Arts in Lodz.

Mommy Mouse
SIO/System diapers
won an award
"Child Friendly Product
of the year"
in the Mother & Baby
Trade Fair Warsaw in 2016.
